## Work Experience

Full-Stack developer  
THILDE

Feb 2020 - Present

I am Volunteering to create a member, and event system, as well as a website for my student organization. I started as a frontend developer using Javascript and react. I started with creating the user admin page for the site. And I also worked on a “Kokebok” for the website. Here I developed both the frontend and backend solutions for the service. For the backend part I used Python with Django Rest Framework, and a MySQL database.

## Education

Bachelor in Computer Engineering  
Ntnu

2019 - 2022

Major in General studies  
Bjørnholt

2016 - 2019

## Technical skills

Frontend - HTML5, javascript, react

Backend - java, python, Django Rest

Design - Figma

Process - Agile, Scrum

## Languages

Norwegian

English

## Other

Full year in The US 2017-2018

I spent my second year of high school in the US. Here I learned how to adapt to different challenges. I also played American Football for the High School here I learned how to be a team player, but also work hard and do what i expected of me.
